Combating noise pollution

Anti-vibration support, **high-performance shock absorber**: for **smooth**, **quiet**, and **comfortable transport**, even when crossing thresholds or exiting elevators. **Noise pollution is significantly reduced.**

Combating musculoskeletal disorders

Its **ergonomic handles, dual casters**, and **synchronized fifth steering wheel** optimize maneuverability.
Its **four shock-resistant corner guards** and **integrated shock absorbers** absorb impacts.

KIDS+ Side Rails with integrated controls

Ergonomic and **responsive** for **caregivers**.
Easy to access and assisted, they **facilitate every movement**, even during intensive use.
Translucent, they allow for **constant monitoring** of young patients while **keeping** them **safe**.

Optimize the treatment area

Tool-free attachment, immediate time saving for. Quick access to the patient, freed-up treatment space, **accessories that can be adapted** to suit every need.

HOSPITAL
